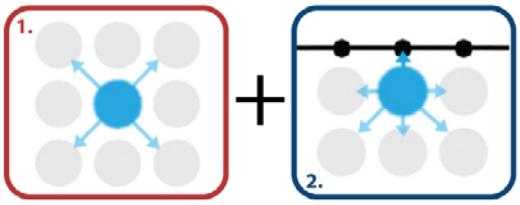
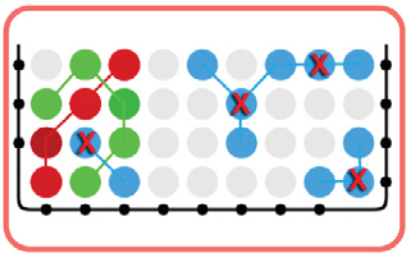
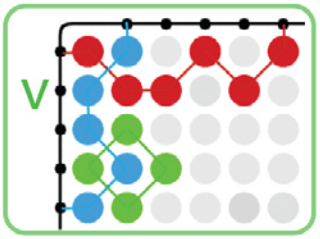
How does it work? Color the grey dots in the 4 colors,
so that each dot has **exactly 2 neighbours of the same color:**
1 **diagonal** - the 2nd can be **diagonal, sideways or a black dot on the edge.**





Comment ça marche? Colorez les points gris dans les 4 couleurs
afin que chaque point ait **exactement 2 voisins de la même couleur:**
1 en **diagonal** - le 2ieme peut être en **diagonal ou latéral ou un point noir du bord.**



Hoe werkt het? Kleur de grijze stippen in de 4 kleuren
zodat elke stip **juist 2 buren van dezelfde kleur** heeft:
1 **diagonaal** – de 2de kan **diagonaal of zijdelings zijn, of een zwart punt op de rand.**
